

## CHRIST'S SECOND COMING.

## A Norman Preacher of Richmond Says It Will Soon Occur in Jerusalem.

The Rev. W. P. Brown, now of Richmond, Mo., but formerly of Independence, was in the latter town yesterday. He has of late attracted much attention because of his belief that the second coming of Christ is soon to occur, he has openly announced his belief to this effect and is making his arrangements accordingly. He expects to be present at the arrival of Christ, and to be a participant in the attendant ceremonies.

Rev. Mr. Brown says that the second coming of Christ is to take place at an early date. The exact time he does not state. The event is, in his opinion, to occur in Jerusalem. He expresses his surprise that people generally do not realize this. The Jews, he says, are the only people who almost universally give the idea credit. They are concentrating in Jerusalem now from all countries to take part in the festivities. General rejoicing will, he says, follow this coming of Christ.

Rev. Mr. Brown is quite wealthy. He owns considerable property at Independence and at different points in Kansas. He is endeavoring to dispose of his entire interest and turn it into cash. He was at Independence for this purpose. He expects to be able to sell out in time to sail for Jerusalem within two months.

This new believer in the second coming of Christ was a resident of Independence fifteen to twenty years ago. He is a promoter of the doctrine set forth in the book of Mormon held and guarded at Richmond, Mo., by the son of Colonel Whitmer, who was one of the witnesses and custodian of the original copy. He preaches the pure Mormon doctrine.

## A FATAL MISTAKE.

Physicians make no more fatal mistake than when they inform patients that nervous heart troubles come from the stomach and are of little consequence. Dr. Franklin Miles, the noted Indiana specialist, has proven the contrary in his new book on "Heart Disease," which may be had free at A. T. Fleischmann's, who guarantees and recommends Dr. Miles' unequalled New Heart Cure, which has the largest sale of any heart remedy in the world. It cures nervous and organic heart disease, short breath, fluttering, pain or tenderness in the side, arm or shoulder, irregular pulse, fainting, smothering, dropsy, etc. His Restorative Nerve invariably cures headache, fits, etc.

## HOG CHOLERA.

Hall Medicine Co., St. Louis, Mo., and also Brill & Baum, of Sedalia, Mo. Very respectfully, W. B. HALL, Sedalia, Mo.

## TAMPERING WITH A LETTER.

Thomas Quinlan, a resident of East Sedalia was arrested this morning by deputy United States Marshal John Oechli, of Kansas City, on the charge of tampering with the mails. The arrest was made at the instance of one W. F. Judd who claims that a letter was sent to him in August last and that in December last he learned that Quinlan had received the letter, had opened it, read it and burned it. Several of the residents in the neighborhood who are supposed to be acquainted with the circumstances were summoned as witnesses. The prisoner with the witnesses was taken to Jefferson City before the United States Commissioner to-day.

Dr. J. W. Gibbon, of Ark., writes: "For many years my wife was a sufferer from a terrible female complaint that baffled the skill of all physicians around me. There seemed no hope for her. I was made acquainted with the composition of Dr. Dromgoole's ENGLISH FEMALE BITTERS, and knowing them to be good, I procured several bottles and placed her upon its use. They cured her sound and well, and I do not hesitate to say, they saved her life."

## THEY WON THE PRIZES.

It is no wonder that no good Odd Fellow tayed at home from Warrensburg yesterday when he learned that the beautiful little city down the line of the Missouri Pacific had offered an elegant silk banner worth \$100 for the largest encampment, and a \$95 organ for the largest delegation. The Odd Fellows went down there yesterday for the express purpose of bringing those prizes back with them and they did it. The Sedalia Daughters of Rebecca also accompanied their liege lords and was the only organization of that character present. The delegation also secured the next state encampment for this city. It will be held April 26th next.

The entire party returned home at midnight last night.

## WANTS A HAT.

The following letter is a curiosity in its way and should be given to the people now on earth:

ADAIR, I. T., March 14  
Mr. Shultz, Sedalia, Mo.

Dear Sir: Having heard of you as a hatter, I beg leave to introduce my name to you, asking you to tell me on what conditions you will put up a No. 1 fur hat and how many you can make from one beaver hide. I have a beaver hide and I want a hat made to order and I want to know if you will make it on the halves or not.

Yours truly G. W. THOMAS.

## ANSWER.

Mr. Shultz is a bang up hatter from Hatterstown.

He feels proud to be introduced to you, even by name, and wants you to come and take tea with him when he will talk the beaver hat business over.

One of the conditions of making the hat is that you wear it to all the Indian powwows in the Nation.

The number of hats one hide will make is a poser. You don't inform the haberdasher whether the beaver was the size of a kitten or as large as a cow.

That question he will have to give will split on our hands and try it again when the weather is cooler.

Shultz makes hats to order.

Shultz has not made any hats "on the halves" since the war, but seeing that you are a new customer and the beaver industry may be looking up in your neighborhood he will take the contract.

P. S.—Do you want a lady's hat or a gentleman's hat made from the beaver hide "on the halves"?

## THE NEW JAIL.

It is now deemed very probable that the county court will at its session on Monday next make some arrangement for the purchase of ground for the new jail and county workhouse, and it is safe to say that within a very short time the prisoners of the county, instead of sleeping their time away in jail, will be put out upon the public streets of the city and the roads of the county, or will be made to break rock in the workhouse yard for the benefit of the county. Judge Dalby has the matter in hand and the other judges of the court are with him in the belief that some better and different arrangements will have to be made very soon.

## A BAD CASE.

A gentleman in the city from Beaman neighborhood tells the BAZOO of a good joke on a well known young man who evidently has a bad case of absent-mindedness. The young man in question rode seven miles one evening last week to see his lady love, who lives in the vicinity of Vint Igo, near Beaman. He hitched his horse and spent the evening with the young lady and when he took his departure at a late hour he was so engrossed with her charms that he forgot all about his horse, left it hitched and walked seven miles to his home, near Clifton City, before he awoke from his reverie and remembered his horse.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

## BIG FIRE AT PHILLIPSBURG, MO.

Phillipsburg, a small town in Laclede county, was almost wiped out by fire at 2 o'clock yesterday morning. The entire business part of the town was destroyed. The leading business houses were Robt. Young's dry goods store and Eli Massey's general merchandise. These stores and large stocks of goods were a total loss. The postoffice, shops and other places of business are in ruins. Young and Massey are the heaviest losers. Their loss is partially covered by insurance. The fire broke out in Young's store, and Mr. Young, who was sleeping upstairs, had a narrow escape for his life. There are said to be strong indications of incendiarism.

## IT IS MR. SLAVEN.

It was announced here in the city this morning that the Governor would make the appointment of county surveyor for Pettis county to-day. It is understood here that Mr. Slaven of Lamonte is the fortunate gentleman, Gov. Francis taking into account that many of the offices of the county were held by residents of the city of Sedalia he thought the country should have a showing. The appointment, if made, will give universal satisfaction as Mr. Slaven is reputed to be thoroughly competent.

## USED CANCELLED STAMPS.

## Young William Hubbel Runs Against the Law Rather Hard.

William Hubbel, an ignorant farmer led of twenty years, was arrested on his step-father's farm near Dunkburg this county this morning, on a capias issued by the United States Court, at Hartford Conn., by deputy United States Marshal T. H. McKenna, of Jefferson City. Young Hubbel is wanted for having used cancelled postage stamps. He was arrested in Hartford early last winter and placed under \$600 bonds which he gave. He says he thought the court would notify him when he was wanted and paid no attention to the date he was required to be present but came to Missouri to visit his family. When his case was called in Connecticut his bond was declared forfeited. It is probable he will be taken back to Hartford for trial. The young man is so ignorant of the laws and customs of the country that there is some excuse for his action. He is guilty. He was taken to Jefferson City at noon to-day.

## THE SUIT WITHDRAWN.

The famous suit of Kaufman against the City of St. Louis which was to have come up at the May term of the Pettis county court, has been dismissed. The suit was a peculiar one in its way and it is doubtful if a similar one was ever tried. The facts in the case were that in 1888, while the democratic convention was being held in St. Louis, the citizens gave a display of fireworks on Lucas square. Some of the roman candles are thought to have set fire to a mill owned by Kaufman and the property was totally destroyed. He brought suit against the city to recover the value of the mill property. The case was sent to this county on a change of venue and now Mr. Kaufman has concluded to have it dismissed.

## LOST TWO FINGERS.

E. H. Buford, who lives at 800 East Fifth street, and is employed at the Sedalia Planing mill, met with a painful accident this morning while at work running a buzz saw. His left hand was caught by the saw and the two middle fingers were completely cut off. Dr. Crawford attended the case. Mr. Buford is able to be around but has his arm in a sling.

## THE GOVERNOR WILL APPOINT.

There is quite a contest for a place on the World's Fair commission. The members of this board will have the charge of the Missouri exhibit at the fair, and will have the disbursement of appropriation of \$150,000 made by the legislature for a state display. They will appoint a general manager and other officers and will be quite an important body. The law goes into effect on the 22d of June and the appointments will be made soon thereafter. It is understood the governor will distribute the appointments in about this order: One from Northeast Missouri, one from Southeast Missouri, one from Northwest Missouri, one from Southwest Missouri, one from the center of the state, and the other two from the big cities. A great many men are being urged for appointment, but the governor has not yet made up his mind on any one man named.

## DEATH OF MRS. McLELLAN.

Mrs. Charlotte McClellan died yesterday morning at the residence of her son-in-law, W. A. Dower, near Longwood, of dropsy. She was aged 66 years and was the mother of Mr. E. E. McClellan and Mrs. H. P. Yount, of this city. Mrs. McClellan has been a resident of this city for many years and was a most estimable lady. She leaves beside the son and daughter above mentioned, two daughters now in Kansas, and two sons, one in Colorado, the other in St. Louis. The funeral took place this afternoon from the Congregational church, Rev. Boller officiating.

## BILLY HOLMES DEAD.

Twenty-four years ago, when a mere youth, W. H. Holmes came to this county and located at Dresden in charge of a lumber yard owned by St. Louis parties. The St. Louis firm also established a lumber yard at Sedalia at the same time and a man named Valentine was put in charge. Subsequently, about 1870, Valentine was killed in a railroad accident near Eureka, Mo., on the Missouri Pacific.

After the death of Valentine, Billy Holmes was transferred to the charge of the Sedalia lumber yard where he held forth until about 1879 or 1880. The yard then was abandoned and Billy went to Pennsylvania where he died last week.

Billy Holmes, as he was best known by that name in Sedalia, was a great favorite in society for a number of years. He was always lively, had a cheerful disposition and was a tireless worker in either business pursuits or for pleasure. No parties were ever given but what Billy was a leader and always foremost in providing pleasure for others.

There are but a few of the old guard left in Sedalia and that few will not refrain from dropping a tear to his memory. His relatives reside in St. Louis.

## FARMER EVANS.

"When is Charlie Evans going to join the Alliance?" asked a sturdy farmer of a BAZOO reporter this morning.

And it all came from his industry as a tiller of the soil.

Charlie lives in a house on Lamine street, situated on a lot 45x120 feet, the part not utilized by the house, the spot where the dog has a roosting place, the wood pile and Charlie's overshoes, has been pre-empted by him as a farm, where he has planted a crop of lettuce, radishes, spinach, sweet potatoes, strawberries, sweet corn, parsnips, Irish potatoes, a patch of popcorn, watermelons, canteloupes, cabbage, etc.

The balance of the lot is laid out in walks and a pasture for the cow. Every morning and evening during pleasant weather Charlie can be seen from the street, working on his farm, pulling up the weeds, sorting the cabbage from the sweet corn, and with the aid of a syringe he refreshes the growing crops with moisture from the cistern.

People who desire early vegetables or sweet potatoes and pop corn for winter use, can leave orders at his residence and take their chances on being served, as the demand will be greater than the supply. Fact.

Charlie will, at an early day, apply for membership in the Alliance, and then put himself in training for an office.

All this comes from industry and an eye to the material wealth of the country which always blossoms into prosperity.

## A MURDERER'S LETTER.

## Another Piece of Evidence in the Walden Murder.

Mr. Charles J. Walden of Moberly, the husband of Lula Walden who was killed by Thomas M. Walden at Hot Springs, an account of which was published in yesterday's BAZOO, received a letter yesterday written by his wife on the Sunday night before she was slain by her paramour. It was as follows:

SUNDAY, 9:15 a. m. HOT SPRINGS, Ark., April 26, 1891.—DEAR CHARLES: I will write you a short letter this morning, as I did not write yesterday; I will also write you a long letter this eve. If I am not feeling better by to-morrow will start for there (supposed to mean Moberly). I fear if I stay will get sick in bed. Everything is all right, even better than I expected. I hope you are all well. How is mother? (Her husband's mother is meant.) Tell her I wish she was here to bathe with me. I am sure it would help her. I will close with love to all. Your wife, LULA.

The above was written in ink. A small part of the second page had been left blank. On this Walden, the murderer and suicide, wrote the following in pencil:

"When you get this your wife will be a corpse and on her road to Vernon. We are both so unhappy we agreed to take our own lives. Charlie, let this be a warning to you."

T. M. WALDEN.

The envelope was addressed in Walden's handwriting, written with a lead pencil. It is supposed that Walden got hold of his victim's letter, opened it and added these words without Mrs. Walden's knowledge.

## MRS. EATON INJURED.

## A Sister of the President Thrown From Her Carriage.

Mr. Scott Harrison, brother of President Harrison, passed through the city at noon to-day enroute to North Bend, Ohio, to visit his sister, Mrs. Bettie H. Eaton, who with her niece, Miss Moore, was injured yesterday by being thrown from a carriage. Mr. Harrison's information of the accident came from the family physician Dr. W. C. Hughes, who says that the injuries are very bad and that he had better come at once. Mr. Harrison will arrive at North Bend about 8 o'clock to-morrow morning.

President Harrison was notified of the accident at San Francisco yesterday and it is possible that his routewill be curtailed and that he will at once return to Washington by way of Ohio.

The accident happened Sunday afternoon at Cleves, about twenty-three miles west of Cincinnati, and near North Bend. Mrs. Eaton and her niece, Miss Moore, went to Cleves to church in a carriage, driving the family horse which, though spirited, had always been considered safe. On their return, while in Cleves, the horse shied at something and the breaching of the harness broke. Miss Moore caught the reins and the horse veered and upset the buggy over a steep bank, throwing both ladies out of the carriage.

Mrs. Eaton was thrown to the hard ground violently, her head striking first. Miss Moore had her shoulder dislocated and suffered other injuries. She was able to be removed to the Eaton homestead at North Bend, and it is hoped that her injuries are not mortal. Mrs. Eaton's injuries were known to be so serious at first that she could not be removed to North Bend. She was at once taken to the house of a friend, Mr. Hayes of Cleves, and Dr. Hughes was called in immediately.

Dr. Hughes thinks that Mrs. Eaton is not suffering from internal injuries. She is about 60 years old, and has a son, Archibald Eaton now at El Paso, Texas. She was idolized by high and low, rich and poor.

## MRS. EATON'S INJURIES.

Cincinnati, Ohio, April 28.—A telephone message from Cleves, Ohio, this morning gave the cheering information that Mrs. Eaton, the sister of President Harrison, rested fairly well last night, and that her physician, Dr. Hughes, while saying she is still in a critical condition, thinks her symptoms much more favorable, with a stronger hope of recovery. It is the physician's opinion that she may safely be removed to day to her own home. She is entirely conscious, and all her friends are much cheered by her apparent prospect of recovery.

## FORGED A NOTE.

The sheriff of Lincoln county, Mo., arrived in the city last evening and called at the Four courts for assistance in locating one A. Q. Cameron, who, with two men named respectively F. J. Webb and Wm. T. Wilson, forged the signature of Wm. T. Wilson, a Lincoln county man, to a note for \$217.60. The men were engaged in the lightning rod business and got the note cashed for the sum it called for. Wilson and Webb were arrested in Illinois yesterday, but before the sheriff arrived they had been released on a writ of habeas corpus and were not to be found. The police will endeavor to locate Cameron, who is said to be a resident of St. Louis.—St. Louis Sunday Mirror.

A. Q. Cameron was a former well known resident of this city, and those who were conversant with his career will not be particularly surprised at his present unfortunate predicament.

## LIGHT HEARTS AND PLENTY MONEY.

I have completed my first week with my Plater and have \$24.25 clear money. I am charmed with the business. I bought my plater from the Lake Electric Co., Englewood, Ill., for \$3, and feel confident that I people knew how cheap they could get a Plater, and how much money they could make we would see many more happy homes. It is surprising the amount of table ware and jewelry there is to plate, and if persons now idle would get a Plater, they would soon have light hearts and plenty of money.

## A MIS-STATEMENT.

Hon. W. O. L. Jewett, editor of the Shelby Democrat was in the city yesterday, with a lilac bouquet and general appearance of interest in the development of spring. Mr. Jewett spent last summer in the east and enjoyed it immensely. He was born in Maine and reared on the Massachusetts coast, where you couldn't get corn into the ground with a shotgun but if you should ask him where he came from he would tell you that it is a Missourian from away back. A little truth. He has lived in the west long enough to shed all the narrow ideas he had in his boyhood, and is always astonished at the provincialism of New Yorkers and Bostonians. One day last summer he went to Long Island, hired a bathing suit and spent several hours in the surf. Afterwards several Missourians who with him persuaded him to go with them into a photographic tent and have his picture taken in costume. Mrs. Jewett, who sat on iron bridge and divined the purpose of the crowd, waved her parasol in disapproval of the procedure. She had seen Jewett, and while preferred Jewett she was of opinion that his picture in bathing costume would not make an art parlor ornament. But Colonel Jewett did not see the emphatic signs of approval. The sun was in his eye and he blindly followed the statuesque Missourians into the fatal tent. A group arranged itself into hollow square, and had its picture taken. It consisted of Burckhes of the Fayette Democrat, Knott of Hannibal Journal, Jacks of the Montgomery Standard, Lingle of the Clinton Democrat, and other journals of magnificent proportions. Jewett and Mr. Lingle were the center of men who were seaweed hats, and naturally made most prominent in group. It is related that Mr. Jewett never got to see his picture in Coney Island costume. That evening his good wife borrowed all the types of the day and quietly disposed of them to the great disgust of Missouri Press Association and discomfiture of Mr. Jewett. But Colonel says he will sneak off and get it again this year.—St. Louis Republic.

The hero of the above arrived Sedalia from St. Louis to-day enroute to his home and after reading above, he declares that he can vouch for Bob Yost without even taking off jacket—not so much because he told about the tin type, but because he made the misstatement that (Jewett's) wife destroyed it. The picture was swathed in cotton camphor, and will go down in history of the Jewett family, as the best decolette bric-a-brac.

The following statement from W. B. Denny, a well known druggist of New Lexington, Ohio, will of interest to persons troubled with Rheumatism. ## HANNIBAL AHEAD.

It is not a frequent occurrence for a snake to visit the city, and especially a principal thoroughfare, but such was the case yesterday. About 1 p. m. persons who were standing on Spruce Main street, discovered that a spread viper was crossing the newly paved street making directly for Home restaurant. His snakeship promptly dispatched with a few directed blows. The reptile, about three feet in length and a vicious looking fellow.—Harris Journal.
